# ThreatConnect

An Active Convergence  
of Three Product Categories

"You're closer than anyone in the space when it comes to fusing TIP, SAO, and SIRP. You are a full fledged SOAR solution in my opinion." - Mitchell Schneider (Gartner)

"You are the most complete SOAR solution, at least as we define it." - Craig Lawson (Gartner)

# What is threat intel?

“Threat intelligence is evidence-based knowledge, including context, mechanisms, indicators, implications and actionable advice, about an existing or emerging menace or hazard to assets that can be used to inform decisions regarding the subject’s response to that menace or hazard.”

“Knowledge of threats that you can use to defend yourself.”

Distilled even more...

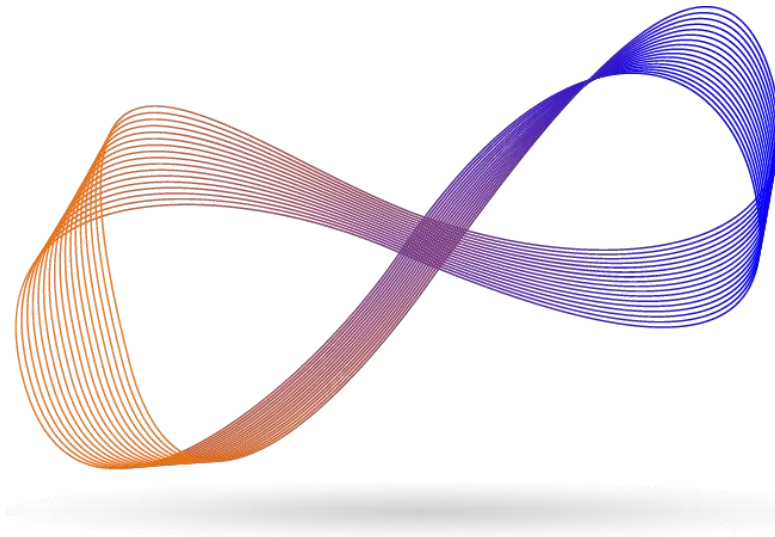

**Actionable**  
knowledge of  
*threats.*

Case Management

*“ThreatConnect **brought everyone together** and reminded us about the ‘**one-team-one-fight mentality**’ where before, it was easier to be in silos. Not because people [chose that], but because we didn’t have an environment that supported something different.”*

Security Intelligence Lead  
Financial Services Company

*“We used nearly **40 ThreatConnect Playbooks** to automate repeatable analyst actions and **saved thousands of hours’ worth of analyst time**. We’ve taken a couple of the typical analyst use cases and put them into Playbooks. And while **we lowered the costs**, our main goal was to put the decision makers where they needed to be - **at the top of the cognitive triangle.**”*
